For the past ten months SKTnetWorks has been providing business customers in the Wichita metro area telephone, Internet, private network, web/video conferencing and data back-up services. SKTnetWorks is an affiliate of Southern Kansas Telephone ("SKT"), headquartered in Clearwater, KS.

It is our pleasure to inform you that your telecommunications and/or data services currently provided by SKTnetWorks will be transferred to and provided by HCI Telecom, Inc. ("Hubris Communications") on a going forward basis. Hubris Communications is conveniently headquartered at 266 N. Main in downtown Wichita. This transaction will not impact SKT's traditional telephone, Internet and cable TV service areas or any other affiliate business of Southern Kansas Telephone, including SKT Business Communication Solutions.

The transfer is expected to be completed on or before March 15, 2010, provided that the necessary regulatory approvals are obtained. Although you have the right to select another carrier to provide your services, Hubris Communications hopes to continue to provide you the same great products and services you have enjoyed with SKTnetWorks. Once transferred, Hubris Communications will automatically begin providing the telecommunications and/or data services presently provided to you by SKTnetWorks unless you have chosen a new service provider and cancelled your service prior to the transfer date.

The change in service provider from SKTnetWorks to Hubris Communications will be transparent to you. This is because (i) Hubris Communications will continue to serve you from the same facility where the SKTnetWorks core network equipment is now located; (ii) your phone numbers will not change; (iii) Hubris Communications will provide you the same services you presently receive from SKTnetWorks and will do so under the same terms and conditions, including price; and (iv) you will incur no additional charges as a result of Hubris Communications becoming your service provider. Notice of any future changes in rates, terms and conditions of service will be provided to you as required by applicable law. The only changes you may notice are: IP addressing, an enhancement to hosted PBX features, and the name "Hubris Communications" will replace "SKT" on your invoices.

If you have a "freeze" placed on your SKTnetWorks services to prevent their unauthorized transfer to another carrier, it will automatically be lifted to implement the transfer to Hubris Communications. You must contact your new service provider (Hubris Communications or other provider of your choice) to reestablish freeze protection for your services after the transfer.

Once again, you need not do anything to become a Hubris Communications customer. If you have any questions or concerns about the transfer of service, you may reach us at the same local customer service number, 316-869-0180 or via e-mail at welcome@hubris.net.

Hubris Communications would like to welcome you as a customer and is looking forward to providing you a cost-effective, reliable and complete package of telecommunications and data services.

Sincerely,

Chris Owen
President, Hubris Communications
